Our Solutions
We care about you and your business.
Webmethod provides complete solutions to support your organization's identity and access governance needs. Our team of IAM consultants can help transform your organization's identity and compliance requirements into a modern security program – both on-premise and in the cloud.
We are your security partner, for both government and commercial entities, here to help you build the custom solution you need to protect your data and assets. We excel in identity and access management, privileged access management, identity governance and security assessments to ensure you get the right solution.
Our Mission
We are an essential partner to our government and commercial customers by fiercely defending their data and corporate assets while providing streamlined, white-glove service for identity management solutions.
Our Vision
We bring our passion, skill and knowledge together to be the world's leading partner in identity management solutions.
About Us
Privileged Access Management (PAM)
We offer tailored Privileged Access Management (PAM) solutions to address organizations' growing IT complexities, mitigating risks and securing infrastructure accounts, thereby enhancing efficiency, effectiveness, and security while supporting growth and cost reduction.
Learn More
Identity And Access Management (IAM)
Our IAM experts collaborate with you to develop a modern program aligning with your risk and compliance needs, offering solutions like Single Sign-On, Multi-Factor Authentication, and Provisioning to enhance security, user experience, and service desk support, ensuring secure data and asset management while facilitating future growth.
Learn More
Identity Governance
Our team collaborates with you to identify key stakeholders and assess your IAM program, leveraging our expertise to develop tailored solutions addressing risk, governance, and compliance concerns.

Global Technology Provider To The Travel Industry
SailPoint And CyberArk
Business Overview
Established a new governance IGA platform, replacing OIM and SIAM with SailPoint and CyberArk, to manage certifications, access requests, and automate provisioning & de-provisioning.
Technical Challenge
The organization was not prepared to engage in a project that would be dependent on various technical business resources, a multitude of key stakeholder groups and several environments to ensure a successful outcome. The team quickly responded and collaborated to provide support and develop various strategies along the way to mitigate major risks and meet critical end dates.
Solutions
The deployment of SailPoint required specific customizations and was dependent on an IAM experienced team to build, test and deploy the solution. The team was also able to build, test and prepare the organization for the future deployment of CyberArk.
Results
Improved overall user experience and provided additional security to prevent future breaches between corporate and customer data.

PROSPECT RESEARCH & DESIGN

PAGE 01

Introduction

Who We Are

Prospect Research and Design (PRD) is dedicated to bringing innovative medical devices from concept to commercialization. Our team of experts specializes in navigating the complex R&D landscape to ensure that groundbreaking medical products reach the market efficiently and effectively. Our mission is to support innovators and healthcare professionals in developing solutions that can significantly impact patients' lives.

Purpose of the Brand Guide

This brand guide serves as a comprehensive reference for maintaining the consistency and integrity of the PRD brand across all platforms and media. It outlines the correct usage of our logo, color palette, typography, photography, graphic elements, iconography, and tone of voice. Adherence to these guidelines is essential for preserving the brand's professional image and ensuring clear, cohesive communication.

PROSPECT RESEARCH & DESIGN

Our Logo

PAGE 02

Logo Composition

Our logo consists of two main elements:

- Logomark: A pentagon, representing our solid and structured approach to research and design.
- Wordmark: The word "Prospect" prominently displayed, with "Research & Design" positioned underneath in a smaller font.

Guidelines for Logo Usage

- Consistent Use: The logo must be used consistently across all materials to ensure brand recognition.
- Clear Space: Maintain a clear space around the logo equal to the height of the "P" in "Prospect" to avoid any visual clutter.
- Minimum Size: The logo should always be large enough to remain clear and readable, ensuring legibility at all times.
- Color Variations: The logo may be used in its original colors, all white, or all black, depending on the background for contrast and visibility.

Prohibited Uses:

- Do not alter the logo in any way, including changing colors, proportions, or orientation.
- Do not add effects such as shadows, gradients, or outlines to the logo.
- Do not place the logo on busy or low-contrast backgrounds.

PROSPECT RESEARCH & DESIGN

PROSPECT RESEARCH & DESIGN

PROSPECT RESEARCH & DESIGN

Color Palette

PAGE 03

Guidelines for Color Usage

- The **primary color palette** consists of **Blue** and **Orange** as seen on the right.
- Consistency: Use the specified colors consistently across all materials to maintain brand cohesion.
- Prohibited Modifications: Do not alter the shades of the primary or secondary colors in any way.
- In all cases of design for PRD, please make use of enough white space.

The **secondary colors (Grey)** are intended for accents and contrasting elements within the design. Their use should be complementary to the primary color palette, avoiding overwhelming the overall visual identity.

Primary Color: Blue
Hex: #0195a2

Secondary Color: Orange
Hex: #307338

20% Black

#FFFFFF

PAGE 04

Typography

AaBbCc123
Eurostile Bold

Primary Font

Headings: Use Eurostyle Bold for all headings to maintain a strong and professional look.

PAGE 05

Typography

AaBbCc123
Raleway

Secondary Font

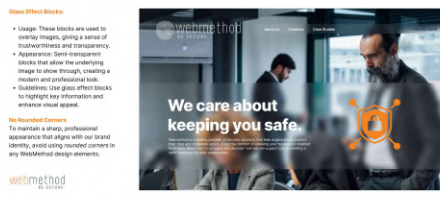
Body Text: Use Raleway or Effra for body text to ensure readability and a clean appearance.

Maintain a clear typographic hierarchy to guide readers through the content effectively.

Photography

PAGE 06

Our photography reflects high-resolution images that align with the themes of medical device manufacturing and relevant contexts. These include: Medical Device Manufacturing: Images showcasing the meticulous process of creating medical devices. Facilities: Photos of our state-of-the-art facilities, highlighting the environment where innovation happens. Ensure all images are high resolution to maintain a professional look.



Graphic Elements

PAGE 07

Our graphic elements include:

- Rounded corner elements
- Linework
- White 'slightly' rounded blocks with drop shadows
- Simplistic diagrams explaining processes
- Where possible our location (Colorado) can be introduced, such as mountain vectors.

Guidelines for Graphic Elements

- Consistency: Use graphic elements consistently to support the brand's visual identity.
- Simplicity: Keep designs clean and uncluttered to ensure clarity.
- Relevance: Ensure that all graphic elements are relevant to the content they accompany.

Diagrams & Processes

PAGE 07

The style of our diagrams and other informational graphics should be kept simple and clear. Where possible the pentagon from PRD's logo can be incorporated, as well as icons from our iconography set.

View our 'Core Processes' Diagram as an example:

Iconography

PAGE 08

Our iconography is simplistic and solid, sourced from a 'creative process' icon pack. Not all icons will be relevant so ensure that their intended use is clear.

Guidelines for Iconography Usage

- Simplicity: Use simple and clear icons to ensure they are easily understandable.
- Consistency: Use a consistent style for all icons to maintain visual harmony.
- Relevance: Ensure icons are relevant to the content they accompany and accurately represent the services offered.

PAGE 01

Introduction

Who We Are

Welcome to the **Webmethod** brand guide! Webmethod is a family-run business dedicated to providing top-notch cybersecurity and identity management consulting services. We pride ourselves on delivering streamlined, white-glove services to both government and commercial entities. Our mission is to fiercely defend your data and corporate assets, ensuring a safe and secure environment for your organization.

Purpose of the Brand Guide

This brand guide is designed to maintain consistency in the representation of the Webmethod brand. It provides clear guidelines on how to use our visual and verbal identity elements, ensuring that our brand is communicated effectively and cohesively across all platforms. This guide will cover logo usage, color palette, photography, typography, graphic elements, iconography, and our tone of voice.

webmethod
BE SECURE.

Our Logo

PAGE 02

Logo Description:

Our logo features a distinctive fingerprint design, symbolizing security and identity. It can be used on its own or in combination with our thin outlined typography wordmark "Webmethod."

Guidelines:

- **Primary Logo:** The fingerprint logo combined with the "webmethod" wordmark.
- Secondary Logo: The fingerprint logo used on its own.
- **Color Variations:** The logo should primarily be used in its original colors. Alternative colors may be used only as specified in this guide.
- **Clear Space:** Maintain a clear space around the logo equal to the height of the "e" in "webmethod" to ensure visibility and impact.
- **Prohibited Uses:** Do not alter the logo in any way, including changing colors, stretching, compressing, adding effects, or modifying the design elements.

webmethod
BE SECURE.

webmethod

Color Palette

PAGE 03

Primary Color 01
Orange
Hex: #f58320
RGB: 245, 131, 32
CMYK: 0, 47, 87, 4

Primary Color 02
Blue
Hex: #2c324e
RGB: 44, 50, 78
CMYK: 44, 36, 0, 69

Guidelines:

- Use the primary colors (Orange & Blue) for the majority of the design elements. Allow for enough white space.
- The secondary colors (Light Blue & Grey) should complement the primary colors and be used sparingly.
- The color palette should not be altered.

#5DEFFB

#707071

#FFFFFF

PAGE 04

Typography

AaBbCc123
Inter

Primary Font: Inter

- Usage: Use Inter for all web and print materials to ensure consistency.
- For headlines: Inter **Bold**
- Weights: Use different weights (Light, Regular, Medium, Bold) to create hierarchy and emphasis.

Guidelines:

- Ensure legibility by using appropriate font sizes and weights.
- Maintain consistent typographic styling across all platforms.
- Do not use any other fonts for branded materials.

Photography

PAGE 05

Focus on high-resolution stock images involving office culture, cybersecurity, and human interaction. Where possible, incorporate the bright orange color from our palette into the photography to maintain brand consistency. Images should convey trustworthiness, professionalism, and a human touch. Ensure all images are high resolution and maintain a consistent look and feel.

Graphic Elements

PAGE 06

Glass Effect Blocks:

- Usage: These blocks are used to overlay images, giving a sense of trustworthiness and transparency.
- Appearance: Semi-transparent blocks that allow the underlying image to show through, creating a modern and professional look.
- Guidelines: Use glass effect blocks to highlight key information and enhance visual appeal.

No Rounded Corners

To maintain a sharp, professional appearance that aligns with our brand identity, avoid using rounded corners in any WebMethod design elements.

webmethod
BE SECURE.

Iconography

PAGE 07

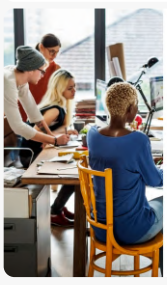
Icon Style

- Design: Simplistic and solid icons to support content and clearly explain service offerings.
- Consistency: Use a unified icon style throughout all materials to maintain visual coherence.

Guidelines:

- Use icons to enhance understanding and navigation.
- Ensure icons are easily recognizable and aligned with the overall brand aesthetic.
- Do not modify icons in terms of any design of the elements.

webmethod
BE SECURE.



Tone of Voice

PAGE 08

Our tone of voice is a blend of concern and professionalism. We aim to have meaningful conversations with our audience, making them feel secure and understood without intimidating them. Use clear, simple, and compassionate language as if speaking to a family member.

Examples:

- *Instead of saying "Our services are critical for your cybersecurity infrastructure," say "We're here to ensure your business is safe and secure, just like family."*

Guidelines:

- Maintain a warm, approachable tone.
- Focus on building trust and offering reassurance.
- Avoid technical jargon that could confuse or intimidate the audience.

webmethod
BE SECURE.

What We Do

Prospect Research and Design (PRD) is the innovator's partner in bringing Medical Device concepts from inspiration to application. Our **central goal** is to foster the rapid introduction of technology to enable longer, happier, and richer lives.

PRD applies a powerful toolset to the challenges of development:

- Biomedical Design & Analysis
- Planning for Market & Regulatory Pathways
- Requirements & Risk Management
- Proof of Concept through Functional Prototype
- A Development Roadmap to Product Realization

Who We Are

Jason Morton
Managing Director

Management professional with over 28 years of medical device experience, and 18+ years in successful leadership roles with start-ups to large enterprises. VC-backed to Fortune 500. Adaptive leadership style, team builder, and tactical planner with a track record of taking new products from ideation to commercialization.

Executive MBA, Daniels College of Business, University of Denver B.S. Mechanical Engineering, Colorado State University

Jim Easter
Managing Director

Management professional, engineer, and regulatory affairs director with over 30 years' experience in design, analysis, and development across aerospace and medical device fields. Extensive background in worldwide regulatory environments including US, EU, East Asia, and ANZ, among others.

Master of Engineering (ME) Engineering Management, Master of Science (SM), Mechanical Engineering, Bachelor of Science (BS), Mechanical Engineering, Professional Engineer (PE), Colorado, Regulatory Affairs Credential (RAC), Medical Devices

Our Experience

Disposables & Combination Devices

- Autoinjectors
- Spine Surgical Instruments
- Endoscopy Overtube Sets
- TPN Fluid Sets
- Optical glucometers
- Dialysis catheters
- Systems for optical hematology
- SVP nutrient delivery
- Septicemia diagnostics

Electromechanical Devices

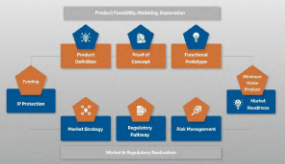
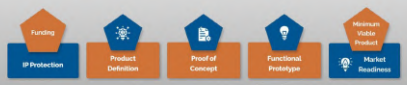
- Implantable microphones
- Active middle ear implants

PRD Core Processes



Product Feasibility, Modeling, Exploration



Market And Regulatory Realization

Medical Device Full Life Cycle Support

Activities Supported By Prospect Research & Design (PRD)

- Product design & development
- Regulatory clearance & clinical usability
- Manufacturing transfer & optimization
- Production scale & fulfillment

Orthopedic Laser Alignment Instrument

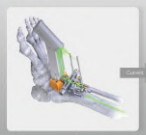
Problem Statement: Client engaged Prospect to support the product life cycle of a handheld surgical alignment tool.

Project Objective: Support Client's development and operational efforts to receive clearance and produce finished goods for end users.

PLS Value Add

- Collaborated with Client to release complete Design History File and Device Master Record
- Conducted thorough root cause analysis that resulted in a design change to improve device performance
- On-demand finished goods ordering and fulfillment

Current Status: Production of finished goods for end users; Recently completed ethylene oxide sterilization requalification



Funding & IP Protection

From grant writing and seed funding, through demos, investor communications, reimbursement and distribution agreements, PRD will work to ensure that your project gas tank never runs dry.

PRD works with patent counsel to help safeguard your intellectual property, conducting thorough research to map the IP environment and acquire freedom to operate, preparing and filing patents, and documenting methods to detect infringement.

Product Definition

The PRD product modeling process starts with critical functions derived from user needs.

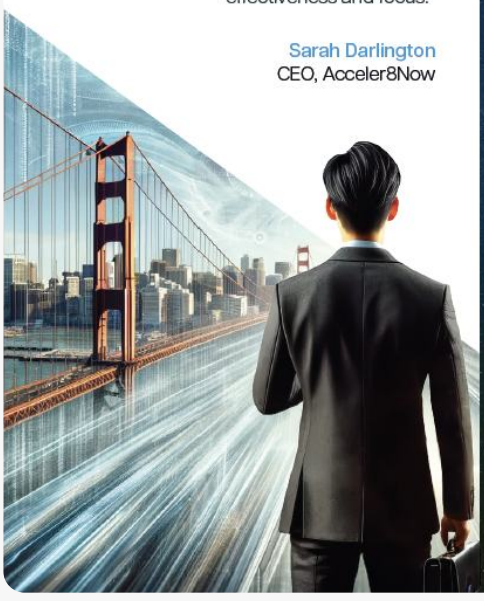
Transform Your **Leader Experience**

LX™
The Leader Experience™

Run Your Business... *don't let it run you.*

"As CEO of a rapidly growing company, the challenge of overseeing various initiatives is often time-consuming and complex, compounded by the use of multiple platforms. TARGA AI presents an innovative approach, offering a single, coherent workspace that accommodates every initiative and application. This integration not only eases management but also significantly improves our operational efficiency, allowing my executive team to lead with greater effectiveness and focus."

Sarah Darlington
CEO, Acceler8Now



Bridging the Gap Between Planning and Execution

Holistic Approach

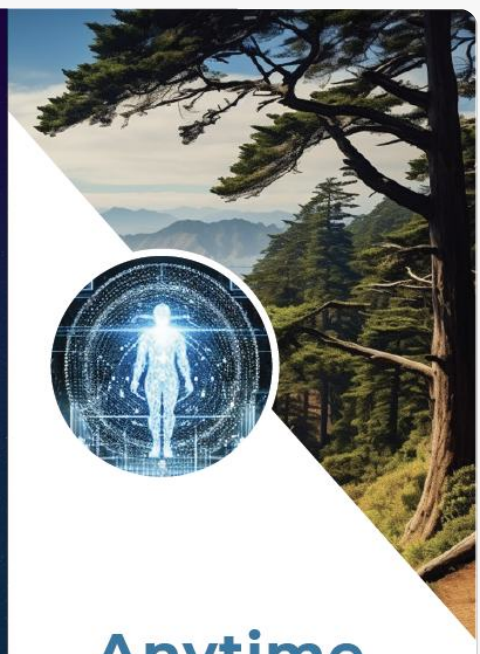
TARGA AI unifies thinking, communication, and execution within a single, intuitive platform. Effortlessly manage tasks across time zones, maximizing productivity without geographical constraints.

Seamless Integration

TARGA AI's voice-controlled user interface integrates seamlessly with computers, smartphones, and smart cars, providing a unified interface for leaders.

Data Consolidation

Enhance leader decision-making by seamlessly integrating with existing workflows. **Department-Agnostic:** TARGA AI's cohesive approach is ideal for implementation across your organization.



Anytime, Anywhere Workplace

TARGA AI is your digital Chief of Staff, streamlining your processes. It anticipates needs, coordinates tasks, and ensures seamless team communication. With TARGA AI, you have a virtual partner that amplifies your leadership.

Your Global Gateway for
All Your Freight Needs

Seamless Solutions for Your Supply Chain

Air, Sea, Land: We Handle It All

Our team of experienced professionals, state-of-the-art warehouses, robust carrier relationships, and a global network spanning across 190+ countries enable us to cater to your unique needs with precision. As a trusted global freight forwarder, Heneways offers end-to-end supply chain solutions to a diverse range of businesses worldwide. We understand the importance of keeping your supply chains running smoothly and efficiently, and we are committed to operational excellence and sustainable growth to achieve this goal.

Partners in Helping You Manage Your Supply Chain

A modern platform to help you:

Quickly find shipments and their status
Manage orders, invoices and shipments
Analyze and optimize your supply chain

Delivering Excellence Every Step of the Way

Decades of Experience:
Trusted Partner for Your Cargo

With Heneways, you can trust that your cargo is in safe hands. Our proven track record of over 50 years speaks volumes about our commitment to reliability and customer satisfaction.

Real-Time Tracking and Visibility

Utilize our real-time shipment tracking, analytics, and more in a modern, user friendly interface that integrates quickly and seamlessly with our CargoWise One software.

Document Archive

Access shipment documents with a new level of visibility. Upload/download shipment documents directly, while automatic notifications alert you anytime there are document updates.

Efficient, Timely Communication

Thrive with real-time exception alerts, shipment notifications, and in-app messages to keep you informed, eliminating back-and-forth emails and phone calls.

Analytics and Reports

Eliminate spreadsheets and manual data management. Our built-in reporting will streamline your operations to support strategic decisions to optimize your supply chain.

What Do We Value?

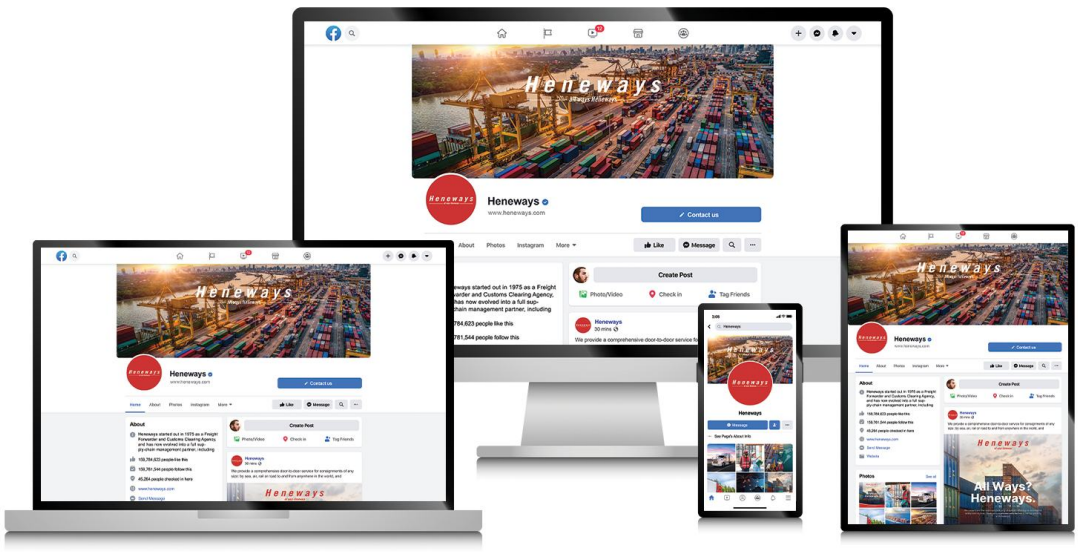
Our people
At Heneways, our people are at the heart of everything we do. We celebrate diversity and empower our employees to deliver exceptional service to our clients. With a client-centric approach, we ensure that your needs are our top priority.

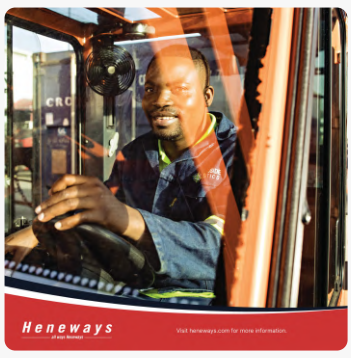
Tech & Innovation
Harnessing the power of technology, we deliver innovative and reliable solutions to streamline operations. Our cutting-edge systems ensure efficiency and transparency, giving you peace of mind throughout your shipping journey.

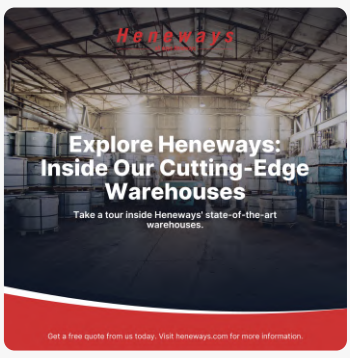
Quality
Quality is paramount at Heneways.
From the moment your cargo is entrusted to us until it reaches its destination, we maintain rigorous quality control measures to ensure excellence in every aspect of our service.

Social Media

We offer comprehensive social media alignment and kits, including posts, videos, banners, and avatars tailored for all platforms. Our kits ensure your brand remains consistent and engaging across your social media presence.







Events

We accommodate custom design requests, such as event banners and stands, to meet your unique needs. Our bespoke solutions ensure that your brand stands out in any setting.
